

## Brief CV

<b>Name</b>	Shi Song	<b>中文名</b>	石松	
<b>Gender</b>	Male	<b>Country</b>	China	
<b>Title</b> (Prof./Dr.)	Senior Engineer	<b>Position</b> (President...)	HVAC Director	
<b>Research Area</b>	HVAC			

Brief introduction of your research experience:

I graduated from Harbin University of Engineering in July 1999 with a major in heating, ventilation and air-conditioning engineering. After graduation, I have worked in Beijing Urban Construction Group (BUCG). I am mainly engaged in the technical management of HVAC. The participated projects include Xiaotangshan SARS hospital and new construction at chinese embassy in South Africa, Beijing Daxing International airport terminal and other projects.

I have published many papers in the magazines of "BUILDING ENERGY EFFICIENCY", "CONSTRUCTION SCIENCE AND TECHNOLOGY", "CONSTRUCTION TECHNOLOGY", "CONSTRUCTION & DESIGN FOR ENGINEERING" and other magazines, and participated in the writing of the book "Illustration of detailed node practices and construction techniques for ventilation and air Conditioning engineering". Participate in a number of research projects of the Beijing Municipal Science and Technology Commission and the Housing Construction Committee.
